

Report and accounts of the Trustees - 2022

# Annual Report

Report and accounts of the Trustees Financial year to 5 April 2022

## **Reference and administrative information**

The Garfield Weston Foundation is a general grant-giving charity endowed by the late W Garfield Weston and members of his family, which is registered with the Central Register of Charities, registration number 230260. The Foundation is recognised by the HM Revenue and Customs as an approved charity for tax purposes, the reference number being X96978.

# 1,988 individual grants made across the UK

Total donations over £89 million

External evaluation of **£30.2 million** Weston Culture Fund commissioned

**£11.4 million** granted to Museums and Heritage

## **Chairman's report**

As the Chairman of the Foundation, I have pleasure in introducing the Annual Report of the Trustees for the year to 5 April 2022.

As this report goes to print, we are saddened to learn of the death of Her Majesty Queen Elizabeth II who was a dedicated patron to so many wonderful charities, we express our profound appreciation for her life's work, service and dedication.

## **Accounting policies**

The financial statements have been prepared in accordance with the accounting policies set out in the notes to the accounts and comply with the charity's governing document, the Charities Act 2011 and Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland published on 16 July 2014 (FRS102).

# Structure, governance and management

## **Structure**

The operation of the Foundation is governed by a Trust Deed dated 10 October 1958.

At 5 April 2022, the Foundation owned 79.2% of Wittington Investments Limited, a company registered in England. Wittington Investments is the ultimate holding company of Associated British Foods plc, which is listed on the London Stock Exchange, Fortnum and Mason plc and Heal's plc. Under the terms of the Trust Deed, the investment in the Wittington Investments Limited group of companies forms the permanent capital endowment of the Foundation and the Trustees may not dispose of that investment except by a unanimous vote of all the Trustees.

## **Governance and management**

In accordance with the Trust Deed, after the death of Mr W Garfield Weston and his wife, their descendants became Trustees. The number of Trustees is limited to ten but must be at least five. If the number of Trustees drops below five, new Trustees fall to be appointed from among the lineal descendants of W Garfield Weston. Being family members, incoming Trustees are aware of the aims and objectives of the Foundation and the manner in which the Trustees carry out their responsibilities. Nearly all of the Trustees are on the board of other charitable entities either in the UK, the United States or Canada. The Foundation is a member of the Foundations Forum and the Association of Charitable Foundations and also receives the main charities' journals. This ensures that the Trustees are well placed to keep up to date with developments in charity practice and regulations. In addition, the Trustees receive direct information in relation to important areas from both their Secretary, who attends monthly meetings and is a practising lawyer with expertise in the charity sector, and from their auditors UHY Hacker Young LLP.

The Trustees are directly responsible for the management of the Foundation and hold regular meetings in order to consider grant applications for £100,000 or more and to ratify smaller grants which have been made since their previous meeting. Additional meetings are included as required to deal with any time-sensitive funding requests. The initial processing of grant applications is dealt with by an experienced team of staff, but every application is seen by at least one of the Trustees who also actively participate in meetings with, and visits to, applicants. The Trustees also hold an annual meeting in order to adopt the Annual Report and Accounts and to carry out a formal review of the fulfilment of the Charity's aims and objectives, policies and the investment performance over the year.

## **Risk management and policies**

The Trustees are satisfied that appropriate policies, protection, systems and checks remain in place in order to mitigate exposure to major risks and to ensure that the Foundation operates in accordance with ethical and environmental guidelines and protections. The Director and Secretary review operational risks and policies on an ongoing basis and these are formally considered by the Trustees at their Annual Meeting.

The principal risks relate to investment performance, and operational risks in terms of grant-making arising from system malfunctions or fraudulent applications. There is also a reputational risk for the charity in terms of its relationship with the underlying trading activities of companies held through Wittington Investments Limited.

**Operational:** the computer system and internal procedures, including authorised signatories, are regularly updated and reviewed and all grant applicants are screened by a skilled grants administration team. During the course of the year

the arrangements whereby staff are seconded to the Foundation from Wittington Investments Limited have been reviewed and updated to ensure that they comply with all statutory and ethical requirements, including, but not limited to, those under the Data Protection Act 2018 and the Modern Slavery Act 2015, to address DEI-related issues and to provide safeguarding for staff and applicants.

*Investments:* the Trustees regularly review the performance of the underlying assets and their shareholding in the Wittington Investments Limited group and receive reports directly from those who are managing the businesses. The non-Wittington investments are also managed in accordance with a policy which balances risk with investment returns (see below).

**Reputation:** the direct involvement of members of the Trustee board in the activities of the Wittington group also enables them to be fully appraised of events which might give rise to unwelcome media attention and hence reputational risks.

**Conflicts of interest:** the Trustees have in place a detailed policy regarding conflicts of interest, both in terms of their grant-making decisions, and also in terms of the fact that some of them are directors of Wittington group companies; this potential for conflict is carefully managed with proper procedures (including as regards the exercise of the Trustees' voting powers at the Wittington Investments Limited AGM and any other shareholder meetings) and the taking of independent advice where necessary.

Ethical and environment: as well as implementing their own policies to protect the environment (for example, nearly all applications are made online and the Trustees receive meeting papers electronically, thus reducing the need for paper and printing and facilitating remote working), the Trustees also keep under scrutiny the ethical and environmental practices as carried out by the underlying businesses in the Wittington group and their independent investment managers. In relation to its staff secondees, the Foundation adheres to the practices laid down by Wittington Investments Limited and Associated British Foods in connection with the Modern Slavery Act and corporate responsibility - for more details see www.wittington-investments.co.uk/wp-content/ uploads/ModernSlaveryHumanTrafficking Statement2020.pdf www.abf.co.uk/responsibility

*Equity, Diversity and Inclusion:* the Trustees are committed to inclusion in our society; addressing disadvantage and 'levelling the playing field' for all has been a central theme of the Foundation for over six decades as we value diversity in its widest sense. We aim to be accessible, transparent and straightforward in our approach to grant-making and we actively support charities which in turn support diverse groups and communities, including those suffering discrimination in all its forms. The Trustees and our staff are committed to inclusion and discussion on EDI is continuous to ensure our commitment is embedded on a daily basis. We continue to monitor the diversity of our staff team and we have appointed a EDI champion who has knowledge and live experience of EDI issues.

**Safeguarding:** the Trustees have a safeguarding policy which is aimed at protecting their own staff as well as vulnerable beneficiaries. The Trustees also require grant applicants to confirm that they have appropriate safeguarding policies in place to protect their staff, volunteers and beneficiaries.

# Income and grant-making aims and objectives

The Trust Deed contains broad charitable objects which allow the Trustees, at their discretion, to pay or apply the income and, subject to the restrictions set out below, the capital of the Trust Fund to or for the benefit of any charitable bodies, trusts, associations, institutions or organisations.

Despite the continuing challenges and fluctuations in share prices and dividend levels resulting from the economic impact of the Covid-19 pandemic and the war in Ukraine, total income receipts for the year rose slightly to just over £84 million (2021: £83.96 million). The Trustees have once again been able to draw on prudent levels of income reserves to make total grants of over £89.88 million in support of 1,988 appeals. This is reduced from the figure for 2021 (£98.32 million in support of 2,129 appeals) owing to the fact that in the 2020/2021 financial year the Trustees provided much-needed extra support to charities which were struggling to fund their operations during the pandemic, but are now conscious of the need to maintain income reserves at an acceptable level in order to be able to provide ongoing support when required should the current difficult economic climate continue.

The total outstanding forward commitments at the end of the financial year were just over £48 million as compared with just over £38 million in 2021. Commitments consist of future payments of £22 million (2021: £6 million) due to charities under existing multi-year grant arrangements, and pledges of just over £26.1 million (2021: £32 million) that require charities to fulfil specific prerequisite obligations. The increase in future payments reflects a concerted effort on the part of the Trustees over the past year to make longerterm grant commitments given the pressures of inflation as well as the need to recover from the pandemic. The Trustees' aim is that pledges should not exceed 20% of their annual projected expenditure, but the current figure includes an outstanding significant pledge of £10 million to Moorfields Eye Hospital for a new centre for advancing eye health (which the Trustees felt was important to support at an early stage in order to encourage support from other donors), so the balance is comfortably within the Trustees' target. Moorfields has been asked to give three months' notice for any release of funds so that the Trustees can effectively manage cash flow.

While the Trustees were pleased to be able to make some substantial grants for key capital projects, including £5 million for the new Museum of London at Smithfield, £3 million for the V&A new Storehouse project, £3 million to build new Onside Youth centres and grants exceeding £1 million for a number of medical, educational and environmental projects, charities remain comparatively cautious in terms of undertaking capital projects and, where these were in contemplation prior to the pandemic, the overall costs of completing the same have risen considerably. The Trustees have therefore done their best to assist with shortfalls and enable such projects finally to move towards completion. The Trustees have also continued to provide support for the core costs of charities which are still suffering from the effects of the Covid-19 pandemic. See the Director's Report and full list of grants made for more details.

## **Grant-making policy**

The Foundation continues to accept only appeals from UK registered charities. No applications from individuals are considered and the Trustees do not typically fund projects outside the UK, nor do they fund animal welfare charities, unless for the purpose of supporting a specific environmental project or where to do so assists with other charitable purposes, such as providing assistance for those with disabilities.

The Trustees' aim is to keep the application process as simple and streamlined as possible. Step-by-step guidelines as to how to make a grant application (more than 95% of which are now submitted online), together with helpful details of the criteria which are taken into consideration when assessing applications and the information which should be submitted with an application, are available on the Foundation's website **www.garfieldweston.org**. These guidelines are also published in Welsh (although applications from Welsh charities must still be made in English).

All applications are considered on an individual basis; the Trustees do not consider funding requests made within 12 months of the outcome of a previous application, but, in relation to funding for core costs, they will consider providing funds to be spread over a period of years. Whenever possible, visits are made by Trustees and/or the Director or one of the other members of the Foundation's grants team in order to gain a better understanding of applicants' requirements. Regular contact is maintained with recipients of grants for monitoring purposes, while also taking care to minimise the burden on the recipient charities.

In order to provide further transparency in the grant-making process, the Foundation publishes its grants through 360Giving. It also commissions independent reviews of grant-giving initiatives, such as the Weston Anniversary Awards in 2018 and the Weston Culture Fund in 2021, in order to assess their effectiveness and to improve the experience for both successful and unsuccessful applicants. These findings are published and shared openly and made accessible on the website.

## **Public benefit**

The Trustees have complied with section 2(1)(b) of the Charities Act 2011, having due regard to the Charity Commission's guidance on public benefit when reviewing the Foundation's aims and objectives, when setting the grant-making policy and in making awards.

## **Achievements and performance**

Despite the current economic uncertainty, I am pleased to be able to report that Wittington Investments Limited has managed to slightly increase its dividend payments to the Foundation so that we have been able to continue to provide funding of nearly £90 million across a broad range of charitable purposes at a time when the sector, and those whom it supports, have been most in need.

I and my fellow Trustees once again extend our sincere thanks to the Director and her team for their forward-thinking, flexible and sensitive approach to the funding needs arising out of the Covid-19 pandemic and its aftermath.

## **Investment performance**

The Trustees are satisfied that the investment structure (represented by the Wittington group of companies) which was contributed by my grandfather to the Foundation remains a sustainable long-term model, particularly in terms of providing a regular and reliable income stream to enable the Foundation to fulfil its charitable purposes. The value of the group of companies (which is directly attributable to the share price of Associated British Foods) continues to fluctuate in line with equity markets generally, but the Trustees remain confident that any such fluctuations will not have a lasting effect on their ability to provide support to grant applicants.

It should be noted that in each financial year for the Foundation there is not a direct correlation between the amounts which Wittington pays by way of dividends and the amounts which are received by the Trustees by reference to their percentage shareholding; this is owing to the fact that the two entities have different accounting year ends.

In terms of non-Wittington investments, the Trustees took the decision in November 2021 to liquidate their investment in the Goldman Sachs Asset Management Global Multi-Manager Alternatives Portfolio. Of these funds, £25 million were invested into the Oxford University Endowment Management (OUem) fund and the balance of just over £9.9 million was added to the Trustees' existing portfolio with Investec.

As at 5 April 2022, the Investec portfolio was valued at over £77.7 million (2021: £64.5m excluding the £9.9 m addition). Performance net of fees at +6.2% was below the benchmark of RPI plus 4% over a rolling three year period (+8.4%), but the Trustees recognise the challenges posed by this benchmark in the current period of inflation. Moreover the portfolio outperformed the ARC (Asset Risk Consultants) Charity Steady Growth Index (the average volatility of which is similar to that of the portfolio), over the year to 31 March 2022 with a positive return (net of fees) of 7.4% as compared with +5.8% for the Index. The annual income distributions to the Foundation from the Goldmans Sachs and Investec portfolios totalled £2.8 million.

The OUem offers an alternative form of investment in a broad range of asset classes, focusing on real returns in excess of inflation and therefore fits well within the Trustees' benchmark of RPI plus 4%. The three year annualised return to 31 March 2022 for the fund as a whole was 13.9% and was well above the fund's objective of CPI+5%. The distribution policy of OUem is to pay an annual distribution of 4.25% of the fund's NAV over the past 20 quarters which is estimated to yield just over £1million per annum for the Foundation.

The capital value of the Savills' Charities Property Fund was  $\pounds 6.93$  million as at 5 April 2022 (2021:  $\pounds 5.967$ m), with an income yield of 3.5%.

Further analysis of the investment assets can be found in Note 9 to the Financial Statements. A copy of Wittington Investments Limited's accounts for the year to 18 September 2021 can be obtained from Companies House.

## **Financial review**

In accordance with required accounting policy, grants are recognised in the statement of financial activities when approved by the Trustees and communicated to the recipients, irrespective of the future period over which payments are to be made, and the obligations outstanding at the year end are recognised as creditors.

## Costs

These continue to be very low in relation to the levels of income and donations made and are kept under review by the Director and Trustees to ensure they remain lean as a proportion of grant expenditure.

## **Reserves**

The Trustees' policy is to maintain reserves of approximately 50% of the Foundation's annual income bearing in mind the general timing of income receipts, their general pattern of giving and the current economic climate. As a result of the record level of grants awarded last year, total income reserves at the end of the year had reduced to  $\pm 24.1$  million and this will be taken into account when assessing levels of grant-making for the following financial year.

## **Investment objectives**

The Trustees' investment objectives in relation to their non-Wittington group assets as set out in the policy statement are to preserve the absolute value of the capital, whilst maintaining its 'real' value.

This involves adopting a relatively conservative investment strategy, investing in a balanced portfolio without geographical, currency or sector restriction, subject to the terms of a Charity Commission Order dated 19 September 2001. The primary benchmark for investment performance remains at RPI plus 4% over a rolling three year period, although comparison is also made on an annual basis with the ARC (Asset Risk Consultants) Charity Steady Growth Index for Investec and, in the case of OUem, the MSCI All Country World Index.

The Trustees are satisfied that the two investment managers have suitable policies in place regarding their stock selection to ensure that this complies with the latest ESG practices and they continue to keep this under review. The Trustees' principal investment, namely Associated British Foods plc, is a highly diversified global company with an extensive and practical approach to responsible business. The Trustees have a direct line of sight into this business, making the Foundation's approach to responsible investment more transparent and with a higher degree of clarity than other models might afford.

# Trustees' responsibilities for the financial statements

The Trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

The law applicable to charities in England and Wales requires the Trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charity and of the incoming resources and application of resources of the charity for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently
- observe the methods and principles in the Charities SORP
- make judgements and estimates that are reasonable and prudent
- state whether applicable accounting standards and statements of recommended practice have been followed, subject to any material departures disclosed and explained in the financial statements
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation

The Trustees are responsible for keeping proper records which disclose with reasonable accuracy the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011, the Charity (Accounts and Reports) Regulations 2008 and the provisions of the Trust Deed. They are also responsible for safeguarding the charity's assets and hence taking reasonable steps for the prevention and detection of fraud and breaches of law and regulations.

The Trustees are responsible for the maintenance and integrity of the charity and financial information

included on the charity's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

## **Plans for future periods**

The challenges experienced by all charities during the Covid-19 pandemic, on which I reported last year, are still having a significant impact on the sector and this is likely to be further aggravated by the rising levels of inflation, which will be felt in all areas, but will have particular significance for charities which support the poorest and most vulnerable in our society as well as for those undertaking capital projects. We as Trustees will continue to do our best to react to the changing needs of the charitable sector and to provide support where it is most needed and can most effectively be utilised to make a difference.

As predicted in last year's report, the levels of grants this year are closer to 2020 levels. However, the Trustees will continue to maintain our ability to respond promptly and effectively to the requests in support of a broad range of charitable causes, relying upon the consistent performance of the Foundation's investment endowment and prudent income reserves.

## Sir Guy H Weston

Chairman of the Trustees

17 October 2022

## **Director's report**

Once again it has been a busy year for the Trustees and staff of the Foundation, following last year's exceptional expenditure to meet the demands

of the pandemic. This year we are pleased that our expenditure has matched prepandemic levels with donations of almost £90 million.

The pandemic, global conflict, climate crisis and rise in inflation all contributed to a backdrop of continuous change which creates a range of ongoing challenges across the voluntary sector. As charities continue to adapt, the Trustees have maintained their commitment to openness and flexibility, supporting a wide range of charities with a breadth of funding including unrestricted and multi-year grants that help organisations plan for the future. It is perhaps no surprise that our largest areas of donations this year included Health, Welfare, Youth and Environment, all reflecting urgent need and our focus on the most vulnerable in our society.

The 2021 United Nations Climate Change Conference, more commonly referred to as COP26, was held in Glasgow and sharpened society's focus on the environmental crisis. The Trustees extended their commitment to supporting organisations tackling these issues and we are delighted to report that we achieved a record level of funding across the environment sector this year, with grants exceeding £7.4 million. The Trustees were pleased to see the first cohort of environmental charities engaging in our Weston Communicating Climate (WCC) programme. Initiated by the Foundation following extensive research, and developed in partnership with the Media Trust, the WCC programme supported 30 charities to extend the reach, power and impact of their communications to influence the public and the media's understanding of climate change and the need to take to take action. The following section details more of this exciting initiative and the impact it has had on the charity participants. We are especially pleased that the programme will extend into a second year with additional partnership funding from commercial media consultancy MG OMD. Other significant grants made to the sector included the Rivers Trust, to build capacity across its member trusts; to Bristol Zoo for its new home and conservation

programmes; and to the John Innes Centre to create a world-leading research facility supporting global food security in the face of the climate crisis.

Given the challenges of the past few years, the Trustees were delighted that the Foundation's proactive focus on Youth charities this year was successful, resulting in a record year of donations of £18.6 million. Over half of all grants to Youth organisations were multi-year commitments, made after listening carefully to the sector which battles the challenges of a reduced workforce alongside the increasingly complex needs of young people. The Trustees combined core cost grants to grassroots charities with infrastructure support for larger organisations, thereby balancing long-term investment for the future with more immediate need. By working in partnership with charities and sector bodies, we were able to reach deeper into the sector and support a record number of firsttime grantees. We know from previous experience that working in partnership with others enables us to reach more of those in need and we aim to develop this approach further in coming years.

In relation to Health, many charities in this sector have been forced to pause or scale back research and capital projects, as staff have been deployed to frontline Covid response work and social distancing requirements have impacted activities and events. This year saw major projects restarting and the Trustees granted over £11.4 million across the Health category; including major investments of £1 million to Cancer Research UK to support the Francis Crick Institute's digital infrastructure, vital for data management by scientists working to tackle human diseases, and a grant of £1 million to the Thrombosis Research Institute for its research work.

We are committed to continuously improving and, just as we adapt and learn from each of our partnerships, we remain engaged with our charity partners and stakeholders to understand the opportunities for improvement and where we can build on existing strengths. Our approach aims to be clear, transparent and straightforward for our charity partners to access and apply to. We measure ourselves by the speed and responsiveness of our communications, the impact and effectiveness of our grants, the feedback of those who apply to us and by evaluating and by learning from our activities. We hope you enjoy reading about some examples of the great work our charity partners have been undertaking with our support.

Philippa Charles Director

## Supporting young people

This year, the Foundation set a new record for donations to the Youth sector with grants totalling £18.6 million. This was achieved through our proactive work in strengthening existing partnerships, developing new ones, and as a result of consistent communications work, highlighting the Trustees' commitment to supporting youth organisations.

With Covid-19 widening the opportunity, education and attainment gaps for young people from marginalised and disadvantaged backgrounds, the Trustees made a series of strategic grants to help youth charities plan for the future with confidence. We combined multi-year donations to support impactful programming that improves young people's life chances with investment in capital infrastructure and facilities to ensure that young people continue to have safe places to go. The largest capital infrastructure grant the Trustees made was to OnSide Youth Zones, a charity focused on creating a UK-wide network of state ofthe-art youth facilities in deprived areas. There are currently 13 Youth Zones that collectively reach around 52,000 young people a year, who attend the facilities seven days a week for a range of diversionary and development activities, mentoring and support. OnSide has an ambitious goal to create 20 new Youth Zones over the next five years, more than doubling its reach to 120,000 young people making 1 million visits a year. The Trustees pledged £3 million to underpin this growth and to encourage other funders to support OnSide's goal.

Well over half of Youth grants in 2021/22 were committed over multi-year periods to help charities gain financial stability as they emerged from Covid and to ensure their vital work with marginalised young people could continue. Two such grants were to the Construction Youth Trust and the Prince's Trust.

The Construction Youth Trust supports young people to achieve their potential by creating opportunities within the construction industry.

## 00

The generous support of the Garfield Weston Foundation will enable us to provide long-term intensive support to 1,000 atrisk young people across our hub areas over the next three years. We can't wait to begin working with young people to build on their individual strengths and interests, develop their soft skills, and help them access training, employment, and career opportunities within the construction industry after they finish school or college.

Tommy Farrell, Partnerships Manager, Construction Youth Trust

A similar investment was made in the Prince's Trust for its Explore programme, the charity's most intensive intervention, which helps young people gain the life skills they need to stabilise their lives and move into education, employment, training, or volunteering. The programme includes one-to-one support, a confidence and skills building residential course and up to six months of mentoring from one of the Trust's 5.800 trained volunteers. Explore was forced to scale back during the pandemic, but the Trust is poised to expand the programme to reach over 10,000 young people over the next three to five years from its centres in London, Birmingham, Stoke, Manchester, Liverpool, Newcastle, Cardiff, Glasgow, Dundee and Belfast. The Trustees' grant of £1.5 million over three years will help to sustain Explore in its early relaunch, directly supporting over 5,000 young people.

Each year the Trustees support hundreds of local charities across the UK to work with their local youth communities. However, given the immense challenges that the pandemic presented not only to young people, but also to the youth sector, in

Thanks to the generous grant from Garfield Weston, Sported will be able to grow our support of the passionate, dedicated local community sports groups across Northern Ireland.

Tom Burstow, Acting CEO, Sported

2021/22 the Trustees wanted to ensure their funding was as far-reaching as possible and, crucially, reached organisations that had not been supported by the Foundation before. By working with the national youth infrastructure bodies across England, Scotland, Wales and Northern Ireland, we were delighted that almost 40% of youth charities supported in the year were new to the Foundation, an increase of 15 percentage points on the previous year. Three of the 145 new grantees were the Nottingham School of Boxing, Cymru Children & Youth Sports Foundation, and the Corpus Christi Youth Centre in Northern Ireland. All three organisations had seen a large increase in the level and complexity of need from young people and the Trustees were delighted to support their important work with funding over two years.

In addition to supporting frontline organisations working with young people, the Trustees also supported a number of youth charities to build capacity and capability. Two such organisations are Girlguiding and Sported.

With the help of over 80,000 volunteers across 25,000 units across the UK, Girlguiding helps 240,000 girls aged 4-18 to develop their confidence, life skills and to make a positive difference in their communities. Despite this volume, the charity is aware that it has a weak presence among many marginalised communities and has launched a new strategy to co-create a Girlguiding offer with underrepresented community

groups. A new team will work with local volunteers and community partners to implement targeted pilots in communities across Northern Ireland, Scotland and Wales. The pilot is designed to be a short-term, intensive capacity-building intervention that can be phased away once the new infrastructure and relationships are established and handed over to the local guiding movement. The Trustees were happy to support this 18 month pilot in the hope that increased opportunities for girls will be developed and sustained by local groups, supported by the national Girlguiding infrastructure.

Sported is the UK's largest network of community groups, all of which use sport and physical activity to address education and employability, health and wellbeing, crime and anti-social behaviour, community cohesion and inequality in sports participation. Sported supports these community groups to become stronger and more sustainable and its 2,600 members are currently supporting half a million young people to overcome barriers to reach their full potential. Almost 70% of Sported's groups in Northern Ireland are entirely volunteer-led

752

A tonne of thanks goes to the Garfield Weston Foundation. The projects supported will provide a safe environment for young people to develop and become a better version of themselves through sports therapy and mentoring activities.

Phillip Mpukusa, CEO, Cymru Children & Youth Sports Foundation

## OO

This funding from Garfield Weston has allowed for us to offer more diverse programmes to the young people within the West Belfast remit. The grant has enabled us to create innovative projects such as residential and community clean ups to develop young peoples' confidence and increase their awareness on the world around them.

John Muir, Manager, Corpus Christi Youth Centre

This grant will be essential to our work supporting vulnerable young people's physical and mental health after the Covid pandemic.

George Overton, Manager, Nottingham School of Boxing

and find it hard to access grants, which are typically far smaller than those available in the other UK nations, yet sport is one of the few activities that crosses divides and unites young people in the country. Sported aims to increase the strength of small community groups in the country but historically has struggled to secure investment in its Northern Ireland operations. Having previously supported the charity's work in Wales, the Trustees were delighted to grant £100,000 over two years to build capacity in Northern Ireland.

The impact of the pandemic on our young people has been profound. The rise in youth unemployment has seen an increase in youth homelessness and the Trustees donated to many organisations working in this space, the largest being Depaul UK. Depaul UK supports around 3,000 young people a year experiencing or at risk of homelessness. Nightstop is Depaul's homeless prevention model that provides emergency accommodation in the homes of trained volunteers who offer their spare rooms to young people in crisis. Communities and charities run Nightstop services in over 30 locations around the UK which Depaul oversees, in addition to delivering the service itself in eight regions. The pandemic presented major challenges to the Nightstop model: demand for emergency housing increased significantly with thousands of young people facing homelessness due to family breakdown, abuse and youth unemployment, while host volunteers withdrew from the scheme due to their age and their need to shield at home. Remobilising and recruiting volunteer hosts is a key priority to enable Depaul to expand Nightstop and the Trustees made a grant of £450,000 across three years to underpin this growth across England, Scotland and Wales.

## **Our natural world**

In recognition of the scale and complexity of challenges facing our environment and climate, the Trustees remain committed to supporting a broad range of charities and issues from landscape preservation, species conservation and food systems to vital research and social action. Over the past few years, the Foundation has proactively encouraged applications from organisations striving to protect and preserve our natural world and has developed a range of partnerships and initiatives to drive this forward. We were delighted, therefore, that in 2021/22 we exceeded our previous record for grant-making to the Environment sector with total donations reaching £7.4 million. Weston Communicating Climate (WCC), our partnership with The Media Trust, saw the first cohort of 30 environment and climate charities graduate from a six-month intensive communications skills training programme and a further 420 charities participated in communications workshops with the support of 480 corporate volunteers. We initiated WCC following research the Foundation commissioned in 2020 that identified the critical challenges environment charities face in communicating the importance and urgency of their work to policy makers and the general public that the sector is facing.

## 757

The climate framing workshop completely changed the way I communicate about climate change.

Carys Evans, Communications and Campaigns Officer, Wildlife Trusts Wales

Having completed the programme, 97% of WCC's first cohort said they expect to reach wider audiences, 92% are now collaborating with other environmental organisations and 77% agree that they know how to use communications to amplify the voices of underrepresented communities. The Trustees are delighted with the success of WCC. The programme has also leveraged additional investment from media company MG OMD which enables the programme to run for a second year. In addition to funding WCC, the Trustees also made an additional unrestricted grant to the Media Trust to support their core work in engaging experts from the media and creative industries to volunteer to build skills and capability of charity partners.

As well as grants supporting frontline activities, the Trustees made a series of strategic investments that will have a global impact, including the John Innes Centre and the Zoological Society London (ZSL). The John Innes Centre is an international centre of excellence in microbial science. The charity is collaborating with The Sainsbury Laboratory (a world leading plant science research centre) to tackle the complex challenge of feeding the growing global human population while also combatting climate change. Together the charities are developing HP3 – Healthy Plants, Healthy People, Healthy Planet - new cutting-edge and future proofed research facilities that will supercharge the institutions' abilities to translate scientific knowledge into practical solutions to help ensure global food security. The Trustees were delighted to pledge £1 million towards HP3's Crop Improvement Centre, a key component of the new facility.

ZSL is perhaps best known for operating London and Whipsnade Zoos, however the organisation is also an international conservation science charity. Its breeding programmes contribute to global efforts to conserve healthy and genetically diverse populations for re-wilding, and its scientific research in areas such as animal behaviour, nutrition, and reproduction, ensures healthy futures for many species. ZSL is also working hard to protect the UK's biodiversity and convenes specialist organisations across the UK, providing scientific vigour to complement conservation action on the ground and to enable it to be evaluated. While the pandemic has presented a challenge to all charities' finances, zoo visitors provide twothirds of ZSL's income, which was depleted significantly during Covid-19. The Trustees were delighted to grant £1.5 million over three years to support ZSL and to ensure its vital work to relieve threats to the UK's biodiversity can continue.

The Trustees' grant to the National Trust (NT) in 2021/22 was for a significant landscape conservation project that has community engagement at its core. Divis and the Black Mountain rest in the heart of the Belfast Hills and

## 66

At Media Trust, we simply couldn't do the transformational work we do without the support of our key funders like the Garfield Weston Foundation. Thanks to GWF, we're matching thousands of media industry volunteers with charities looking for communications support, thereby helping to drive positive change for the communities and charities they serve.

Su-Mei Thompson, CEO, Media Trust

Mark Lloyd, CEO, The Rivers Trust

provide free green space to some of the most marginalised communities in the UK. Despite the positive impact that being connected to nature has on our lives, the NT's research shows that almost 200,000 local people currently do not use the mountain. The NT is therefore embarking on a major project to restore and protect the mountain's at-risk peatland and wildlife, interpret its 9,000year history of human involvement and engage local communities, with a particular focus on young people experiencing barriers to education and employment, people living with a disability, those living in poverty and people across sectarian boundaries. The Trustees were happy to grant £300,000 to help local people connect to this important at-risk landscape to ensure its long-term sustainability.

Beyond money, the Trustees' grants help to build the voluntary sector's capability, capacity and confidence. These '3 Cs' define the Foundation's partnerships that develop skills and opportunities with expert organisations. Weston Communicating Climate with the Media Trust is one such partnership and another was the Trustees' grant to the Rivers Trust (RT), the umbrella organisation for 60 member Rivers Trusts in the UK and Ireland. It works with its members to protect rivers, conserve wetlands, restore soils, plant trees and build urban drainage schemes: projects that create more space for nature, greater public facilities, reduce flood risk and pollution and absorb carbon from the atmosphere. The RT has an ambitious goal to quadruple the size and environmental impact of the network over the next five years and the charity's team of Regional Development Managers is pivotal to this goal. In addition to building capacity and capability in local Rivers Trusts to deliver conservation projects, this team has helped secure millions in funding for the network and influenced policy makers. The team is vital to the ongoing growth and strength of the Rivers network and the Trustees were happy to grant £300,000 over three years to ensure the team's continuation.

Action needs to be taken now to fight climate change and the Trustees invite charities working in this vital sector to partner with the Foundation.

## Summary of grants awarded in the year ended 5 April 2022

Category	0ver £20,000	No. of grants	£20,000 and under	No. of grants	Total amount £	Total no. of grants

## Independent auditors' report to the Trustees of the Garfield Weston Foundation

## **Opinion**

We have audited the financial statements of Garfield Weston Foundation (the charity) for the year ended 5 April 2022 which comprise the Statement of Financial Activities, the Balance Sheet, the Cashflow Statement and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the charity's affairs as at 5 April 2022 and of its incoming resources and application of resources for the year then ended
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice and
- have been prepared in accordance with the Charities Act 2011

## **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISA (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the Trustees' use of the going concern basis of accounting in the preparation of the financial statement is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Trustees with respect to going concern are described in the relevant sections of this report.

## **Other information**

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The Trustees are responsible for the other information contained within the financial statements. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Matters on which we are required to report by exception

In the light of the knowledge and understanding of the charity and its environment obtained in the course of the audit, we have not identified material misstatements in the Trustees' report. We have nothing to report in respect of the following matters where the Charities Act 2011 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us
- the financial statements are not in agreement with the accounting records and returns
- certain disclosures of Trustees' remuneration specified by law are not made
- we have not received all the information and explanations we require for our audit

## **Responsibilities of Trustees**

As explained more fully in the Trustees' responsibilities statement set out on page 8, the Trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

## Auditors' responsibilities for the audit of the financial statements

We have been appointed as auditor under section 151 of the Charities Act 2011 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Details of the extent to which the audit was considered capable of detecting irregularities, including fraud and non-compliance with laws and regulations are set out below.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities This description forms part of our auditor's report.

## Extent to which the audit was considered capable of detecting irregularities including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the charity and the industry in which it operates, we identified that the principal risks of non-compliance with laws and regulations related to the acts by the charity, which were contrary to applicable laws and regulations including fraud, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Charities Act 2011.

We evaluated management's incentives and opportunities for manipulation of the financial statements (including the risk of override of controls), and determined that the principal risk related to the valuation of the unquoted investment in Wittington Investments Limited ('Wittington') of which the Foundation owns 683,073 50p ordinary shares (79.2%).

The valuation of Wittington requires significant estimation as it is an unquoted company and there is no readily identifiable market price for its shares. Accordingly, the value of the Foundation's investment has been assessed by the Trustees on the basis of the share of the value of the underlyng net assets of Wittington attributable to the Foundation's holding as at 5 April 2022. As Wittington's financial statements are audited as at 18 September 2021, there is a varying degree of estimation required to assess the net asset value as at 5 April 2022 and therefore there is more potential for misstatement in this area.

We assessed Management's valuation methodology and considered whether it was in accordance with the accounting policies of the Foundation, applicable accounting standards and industry practice. Wittington's principal asset is a majority holding (54.5%) in Associated British Foods plc. Therefore, the value of the Foundation's investment in Wittington is driven predominantly by the Associated British Foods plc share price as at 5 April 2022. As the shares are listed on the London Stock Exchange, the value of this holding can be determined easily.

Other audit procedures performed included: review of the financial statement disclosures to underlying supporting documentation to assess compliance with relevant laws and regulations, review of correspondence with legal advisors, review of minutes of meetings held by those charged with governance, enquiries of management and testing of journals and evaluating whether there was evidence of bias by the Trustees that represented a risk of material misstatement due to fraud.

There are inherent limitations in the audit procedures described above and the further removed noncompliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

## **Use of our report**

This report is made solely to the charity's Trustees, as a body, in accordance with Chapter 3 of Part 8 of the Charities Act 2011 and regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the charity's Trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's Trustees as a body, for our audit work, for this report, or for the opinions we have formed.

UHY Hacker Young Chartered Accountants Statutory Auditor Quadrant House 4 Thomas More Square London E1W 1YW

17 October 2022 UHY Hacker Young LLP is eligible to act as an auditor in terms of section 1212 of the Companies Act 2006.

Cash and cash equivalents at the end of the period	14	73,774	68,258

## Notes to the financial statements for the year ended 5 April 2022

## **1** Accounting policies

The financial statements have been prepared in accordance with applicable UK accounting standards (UK Generally Accepted Accounting Practice), including Financial Reporting Standard FRS 102 'The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland' ("FRS 102"). In particular, they comply with the Charities Act 2011 and the Statement of Recommended Practice 'Accounting and Reporting by Charities (the "SORP").

The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Report) Regulations 2008 only to the extent required to provide a 'true and fair' view. This departure has involved following the Charities SORP (FRS 102).

The Foundation constitutes a public benefit entity as defined by FRS 102. The financial statements are prepared on the historical cost basis except that certain financial instruments are stated at fair value.

The financial statements have been prepared in sterling, which is the functional currency of the Foundation. Monetary amounts in these financial statements are rounded to  $\pm$ '000s.

The particular accounting policies adopted by the Trustees are described below:

#### a Going concern

After making enquiries, the Trustees have a reasonable expectation that the Foundation has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the consolidated financial statements.

Having reviewed the best estimate of future cash flow to September 2023, and having applied reverse stress tests, the possibility that the financial headroom could be exhausted is considered to be extremely remote. The Trustees understand the risks, sensitivities and judgements included in the cash flow forecast and have a high degree of confidence in these cash flows. There is substantial financial headroom between this cash flow forecast and the cash on hand and funding available to the Foundation over the period.

#### b Incoming resources

Dividends are included when received. Interest receivable on fixed interest securities and bank deposits is included on an accruals basis. All incoming resources are recognised once the Charity has entitlement to the resources, it is probable that the resources will be received and the monetary value of incoming resources can be measured with sufficient reliability.

#### c Resources expended and irrecoverable VAT

Liabilities are recognised as resources expended as soon as there is a legal or constructive obligation committing the Charity to the expenditure. All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the category.

Grants awarded are charged in the year when formally awarded by the Trustees and communicated to the recipient irrespective of the period covered by the donation as they are regarded by the Trustees as financial obligations.

Irrecoverable VAT is charged against the category of resources expended for which it was incurred.

#### d Allocation of overhead and support costs

Overhead and support costs are allocated first between charitable activity and governance. Overhead and support costs relating to charitable activities have been apportioned based on the value of individual grant awards made as it is considered that more is spent awarding, monitoring and assessing grants of greater value. The allocation of overhead and support costs is analysed in note 5.

## e Costs of generating funds

The costs of generating funds consist of investment management fees and commissions.

#### f Charitable activities

Costs of charitable activities include grants made and an apportionment of overhead and support costs as shown in notes 3 and 4.

#### g Governance costs

Governance costs comprise all costs involving the public accountability of the Charity and its compliance with regulation and good practice. These costs include costs related to statutory audit and legal fees together with an apportionment of overhead and support costs.

#### h Interest in Wittington Investments Limited

At 5 April 2022 the Foundation owned 79.2% (2021: 79.2%) of Wittington Investments Limited, a company registered in England. Wittington Investments Limited is the ultimate holding company of Associated British Foods plc, and a wide range of investments including Fortnum & Mason plc and Heal's plc, two hotels, a real estate portfolio and significant financial investments. Associated British Foods plc is listed on the London Stock Exchange. The Foundation receives its income from Wittington Investments Limited by way of dividends and records its investment in that company at Trustees' valuation.

As the activities of Wittington Investments Limited and its subsidiaries are fundamentally different from the activities of the Foundation, consolidated accounts have not been prepared as the Trustees are of the opinion that the adopted policy gives a true and fair view of the Foundation's assets and sources of income. Details of the consolidated accounts of Wittington Investments Limited are shown in note 9 to these accounts. The Trustees have agreed this policy with the Charity Commission.

#### i Fixed assets investments

Investments are stated at market value as at the balance sheet date. The statement of financial activities includes the net gains and losses arising on revaluation and disposals throughout the year.

## j Realised gains and losses

All gains and losses are taken to the statement of financial activities as they arise. Realised gains and losses on investments are calculated as the difference between sales proceeds and opening market value. Unrealised gains and losses are calculated as the difference between the market value at the year end and opening market value. Realised and unrealised gains are not separated in the Statement of Financial Activities.

## k Fund accounting

Details of the nature and purpose of each fund are set out in note 13.

#### I Financial instruments

Financial assets and financial liabilities are shown in note 8 to these accounts and are recognised when the Foundation becomes a party to the contractual provisions of the instrument.

Financial assets which qualify as basic financial instruments, including trade and other receivables and cash, are subsequently valued at amortised cost and assessed for impairment at the end of each reporting period.

Other financial assets, including investments, are subsequently valued at fair value.

Financial liabilities are classified according to the substance of the contractual arrangements entered into. All financial assets and liabilities are initially measured at transaction price including transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets are derecognised only when either the contractual rights to the cash flows from the financial asset expire or are settled or all of the risks and rewards of ownership of the financial asset are substantially transferred to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Investments are stated at market value at the balance sheet date. The market values of the managed portfolios are advised by the portfolio managers. The statement of financial activities includes the net gains and losses arising in revaluation and disposals through the year.

- **Quoted investments** comprise publicly quoted, listed securities including shares, bonds and units. Quoted investments are stated at fair value at the balance sheet date.
- Unquoted investments are valued at the Trustees' best estimate of fair value as explained in note 9.

## **2** Investment income

	Managed funds £'000	Charities property fund £'000	Unlisted £'000	2022 £'000	2021 £'000

## **3** Grant-making activities

	2022 £'000	2021 £'000
Grants awarded and associated costs (note 4)	90,765	98,583

The list of individual grants made during the year is set out in note 16 and grants paid during the year are summarised by category in note 11.

Significant aspects of the grant activity during the year are described on pages 2 to 17 of the Trustees' report.

## 4 Analysis of charitable expenditure

The Charity undertook no direct charitable activities but awarded grants to a number of institutions in furtherance of its charitable activities. As a consequence of supporting charitable organisations, the Foundation achieves public benefit. The Foundation's grant policy is to accept only appeals from UK registered charities. Registration provides an element of assurance of public benefit, although for charities registered before the implementation of the Charities Act 2006 the public benefit was a presumption.

	Grant funded activity £'000	Support costs £'000	Governance costs £'000	2022 Total £'000	2021 Total £'000

## Analysis of charitable expenditure - comparatives for the year ended 5 April 2021

## 5 Allocation of support costs and overheads

	Governance costs £'000	Grant making activity £'000	Total 2022 £'000	Total 2021 £'000	Basis of Apportionment
Legal & professional fee costs	109	-	109	38	N/A
Staff costs	156	622	778	741	Staff time
Other costs	356	646	1,002	1,055	Staff time
	621	1,268	1,889	1,834	

The costs relating to grant-making activity represent costs incurred in assessing applications, administration of the grants awarded and post grant monitoring.

The Foundation does not employ any staff. Staff costs comprise charges of  $\pounds 698,953$  (2021:  $\pounds 614,050$ ) from Wittington Investments Limited in respect of the work undertaken by its employees for the Foundation and  $\pounds 78,505$  (2021:  $\pounds 78,750$ ) consultant charges.

Included within other support costs and overheads are amounts relating to accountancy of  $\pm 51,360$  (2021:  $\pm 50,490$ ), computing and IT costs of  $\pm 26,293$  (2021:  $\pm 26,293$ ) and accommodation costs of  $\pm 411,600$  (2021:  $\pm 402,490$ ).

Nine (2021: nine) Trustees received expenses totalling £589 (2021: £537) relating to travel and subsistence.

The total support cost attributable to charitable activities is then apportioned pro rata to the value of grants awarded in the year as set out in note 4.

# Allocation of support costs and overheads – comparatives for the year ended 5 April 2021

	Governance costs £'000	Grant making activity £'000	Total 2021 £'000	Total 2020 £'000	Basis of Apportionment
Legal & professional fee costs	38	-	38	23	N/A
Staff costs	148	593	741	644	Staff time
Other costs	417	638	1,055	1,088	Staff time
	603	1,231	1,834	1,755	

## 6 Analysis of governance costs

	2022 £'000	2021 £'000
Auditors' remuneration – audit services	26	25
Staff costs	155	148
Other support costs	440	430
	621	603

The governance costs comprise costs of running the Foundation and planning for future developments, including audit fees and costs of complying with constitutional and statutory requirements, such as Trustees' meetings and the preparation of accounts satisfying public accountability.

## 7 Trustees' remuneration

## a Trustees' remuneration

No remuneration was paid to the Trustees for their services to the Foundation.

## **b** Directors' remuneration

As stated in notes 1(h) and 9, the Foundation owns 79.2% of Wittington Investments Limited which in turn holds 54.5% of Associated British Foods plc and 100% of Fortnum & Mason plc plus a number of other wholly owned subsidiaries.

Four of the Trustees, Guy Weston, George Weston, Anna Catrina Hobhouse and Alannah Weston are directors of Wittington Investments Limited. Of these three Guy Weston and Anna Hobhouse received remuneration from Wittington Investments Limited.

George Weston is a director of Associated British Foods plc and received remuneration from the company in that capacity. Anna Catrina Hobhouse is chairperson and a director of Fortnum & Mason plc and received remuneration from Wittington in that capacity

Remuneration (comprising salary, fees, bonus and benefits) paid to Trustees in their capacity as directors of these companies, which is authorised by clause 13 of the Trust Deed, as set out in the most recently available accounts of the relevant companies was as follows:

	Year ended 18 September 2021 £'000	Year ended 12 September 2020 £'000
Anna Catrina Hobhouse – as a non- executive director of Wittington Investments Limited as a chairperson and director of Fortnum & Mason plc	21 110	18 99
Guy H Weston – as a director of Wittington Investments Limited	345	372
George G Weston – as a director of Associated British Foods plc (note below)	3,390	1,138

Note: full details of George G Weston's remuneration, pension and options are set out in the Remuneration Report contained in the Annual Report and Accounts 2021 of Associated British Foods plc.

#### c Key management remuneration

Key management personnel's remuneration constituted the total aggregate amount of  $\pm 360,615$  (2021:  $\pm 347,320$ ).

## 8 Financial instruments

	2022 £'000	2021 £'000
Carrying amount of financial assets		
Debt instruments measured at amortised cost	1,186	1,322

	99,608	5,967	9,661,597	9,767,172

The managed funds are managed on a discretionary total return basis.

The charities property fund comprises units in the Savills Charities' Property Fund.

#### **Unlisted investments**

The unlisted investments comprise 683,073 50p ordinary shares (79.2%) of Wittington Investments Limited, an unquoted company, see note 1 (h).

The business of Wittington Investments Limited is the management of investments in a wide range of assets. As it is an unquoted company there is no readily identifiable market price for its shares. Accordingly, the value of the Foundation's investments has been assessed by the Trustees on the basis of the share of the value of the underlying net assets of Wittington attributable to the Foundation's holding.

Wittington's principal asset is a holding of 54.5% of the issued ordinary capital of Associated British Foods plc ('ABF') which is listed on The London Stock Exchange. In assessing the value of the underlying net assets of Wittington the value of its investment in ABF has been based on the closing share price as at 5 April 2022.

In addition, Wittington holds a wide range of other assets managed in four different business segments:

- Luxury Retail: comprising the 100% ownership of Fortnum & Mason and Heal's, two long established retailers.
- Real Estate: investing in high-quality investment properties in the retail, office and distribution sectors across the UK. Wittington also takes strategic positions in selective development opportunities, alongside local partners or sector specialists.
- Hotels: as an extension of its Real Estate strategy, Wittington invests in hotels with high-quality real estate backing and with a broad mix of customers from corporate, event and leisure markets. Wittington currently owns The Grand Hotel, Brighton and the Richmond Hill Hotel.
- Private Markets & Other Investments: Wittington invests both directly and via externally managed funds in private equity and private debt markets. Other investments are principally composed of liquid investments in short-dated investment grade bonds and listed equities.

The most recent financial year end for Wittington was 18 September 2021. As such, aside from the investment in ABF, Wittington's remaining investments have been valued using net asset values in the 31 March 2022 management accounts, which are considered to be their fair values. At 5 April 2022 the fair value of Wittington including Associated British Foods Plc is considered to be  $\pounds$ 8.91bn and the Foundation's share of this (79.24%) is  $\pounds$ 7.06bn.

At the date of this report, restrictions relating to the Covid-19 pandemic have completely eased domestically. The situation is still uncertain and new variants of concern and their resistance to vaccines could still lead to Governments and authorities imposing restrictions on an international, national, regional and local level. The reintroduction of such restrictions would fundamentally affect the trading outlook for all of the Wittington Group's business segments. As economies around the world have reopened, all our businesses are experiencing logistic challenges, Covid-related labour absences and significant inflationary pressures in raw materials, supply chains and energy. Against this backdrop, the Wittington group of businesses have performed resiliently, with profits and cash balances restored to pre-Covid levels. Despite this, the closing price of shares in Associated British Foods plc at 5th April was 33% lower on the prior year.

The Wittington group owns two hotels and a portfolio of investment properties. The portfolio is held at cost less provision for impairment within the financial statements. The third-party valuations prepared at 18 September 2021 were considerably higher than this carrying value when considering the portfolio in total. The trustees do not expect material movement in the market value of the properties compared to the valuation as at 18 September 2021.

The Trustees have no current intention of disposing of the interest in Wittington.

#### **10 Debtors**

	2022 £'000	2021 £'000
Debtor: amounts falling due within one year		
Accrued interest	241	471
Amount due from investment managers	355	851
Loan receivable	590	-
	1,186	1,322

The loan receivable reflects an interest free loan to Mission Employable of  $\pm 590,000$  to be repaid over 12 months.

## **11** a Creditors: amounts falling due within one year

	2022 £'000	2021 £'000

### **12** Analysis of charitable funds

Analysis of Fund movements	Balance at 6 April 2021 £'000	Incoming resources £'000	Resources expended £'000	Transfer s £'000	Gains and losses £'000	Balance at 5 April 2022 £'000
Permanent endowment	9,661,597	-	-	-	(2,603,502)	7,058,095
Unrestricted expendable capital	106,242	1,800	(183)	(3,045)	5,466	110,280
Unrestricted income fund	29,624	82,204	(90,765)	3,045	-	24,108
Total	9,797,463	84,004	(90,948)	-	(2,598,036)	7,192,483

#### Permanent endowment

The permanent endowment funds comprise the original capital fund, and gains thereto, established to provide income for grant payments in accordance with the objectives of the Foundation. The capital may not be converted into income. The funds are represented by the investments included in fixed assets. Unrealised gains on revaluation of these investments are credited to the funds.

#### **Unrestricted expendable capital**

In accordance with the authority given to the Trustees under an Order of the Charity Commission dated 19 September 2001, £65,747,000 was transferred to an expendable capital fund in relation to which income and capital are distributable at the discretion of the Trustees. £5 million was invested in 2001/02 in the Charities Property Fund and £60 million was invested in 2002/03 with investment managers in balanced portfolios on a discretionary total return basis. Income and investment gains and losses are taken to this fund and the amount allocated to income by the Trustees, £3,045,313 (2021: £3,832,000), is shown as a transfer to the income fund.

#### **Unrestricted income funds**

The income of the Foundation is expendable at the discretion of the Trustees in furtherance of the objects of the Foundation. Gains on investments held in the income funds are credited to these funds.
